

W400A

recommended combinations

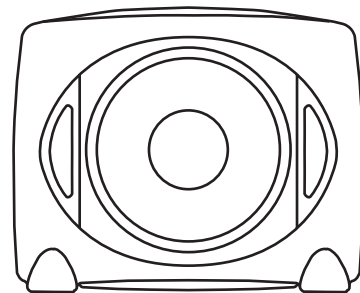

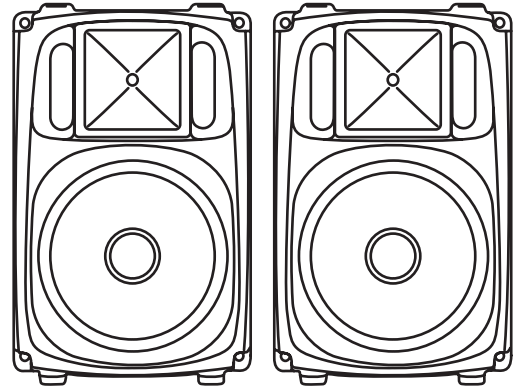

In the applications requiring an extension of the low frequency response, W400A combines perfectly with the Montarbo active subwoofers 119SA and SW540.

one W400A + one SW540

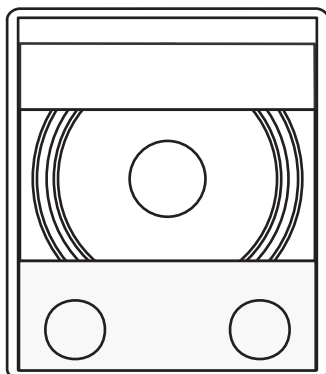

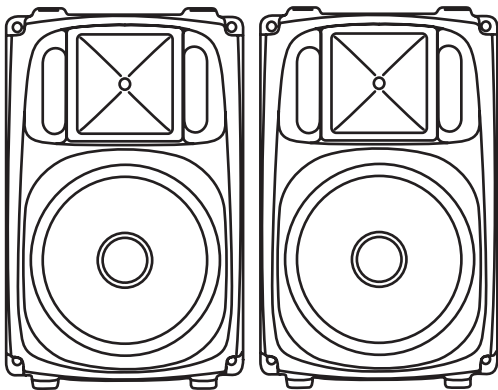

active sub (550W) with built-in stereo electronic X-over (120Hz, 24dB/oct)

two W400A + one SW540

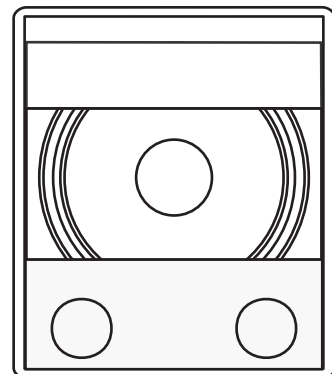

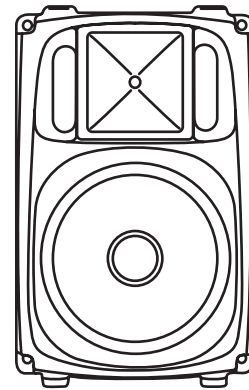

two W400A + one 119SA

active sub (600W) with built-in stereo electronic X-over (100Hz, 24dB/oct)

one W400A + one 119SA

The above suggested combinations of subwoofers + active speaker systems are 'technically correct', but they do not take into consideration all the different possible situations and configurations, nor the individual requirements of power and sound distribution.
